Block

The RTI Ecosystem

Audio Distribution

Multi-room audio and music streaming

RTI Music enables seamless streaming while the AD Series Matrices and CP-16i amplifier deliver exceptional distributed audio.

Remote Controls

Primary, secondary, and specialty

From the large capacitive touch-screen of the ISR-4 to the water-resistance of the U3, RTI has the remote for every project and application.

Touchpanels

Dedicated on-wall or tabletop control

From the high-res elegance of the IST-5 and IST-10 to the all-in-one convenience of the KX4, RT touchpanels deliver exceptional control.

Control Processors

Scaling to meet any project's needs

Video Distribution

Extenders to Video over IP

RTI Video Distribution delivers 4K video in any installation, always intuitively controlled without leaving the RTI control environment.

Workspace Solutions

Intelligent Meetings

4K Video Bar with AI tracking camera; Ecosystem includes expansion mic, and Media Xchange™ Transmitter.

We Work with the Best

The brands important to your customers

RTI drivers enable IP control and automation for best-in-class third-party subsystems with new drivers delivered weekly.

Scalable and powerful control solutions, customized with Integration Designer 11

Expansion

Accessories to enable connections

RTI relays, connecting blocks, Ethernet-to-Serial converters, voltage power sensors and more expand control and automation to connected equipment.
